

Example of the letter/email you will receive with a HAF code if your child is entitled to benefit related free school meals.

Dear Parent/Carer

Holiday Activities and Food Programme (HAF)

The HAF programme offers a range of fun activity sessions and at least one healthy meal during each session and runs during the **Easter, Summer and Christmas school holidays**.

School age children (from reception to year 11) who receive benefits-related free school meals are eligible to access the programme and there is no cost to the family.

The following child is eligible to access a free HAF place during the school holidays.

You will need the HAF code below to book a place for your child so please do make a note of it as you will not receive a letter in the post.

Child name	HAF code
***** *****	***** (usually six digits)

Please note: If you have other children who are eligible you will receive a separate email with their HAF code.

Please note: You will only receive an email and code for children attending a Solihull maintained school or academy. If you have other children who attend a school in another council area you will need to contact that particular local authority as we can only provide codes for those in Solihull schools.
